### Ms. Sakaguchi's speech

I'm talking about my future. I want to be a lawyer in the future. This is because I want to help people by using laws. I'm a junior high school student now, so I do not have to study laws now. I just have to study many subjects hard as a habit now. However, I will go to a university to study laws in the future. I think studying laws is difficult because there are many laws. I will never give up. \*lawyer : 弁護士、law : 法律、as a habit: 習慣として
