

# My Dream

Step 1 : Read Sana's essay and answer the questions with complete sentences!

By the time I was an elementary school student, I had wanted to be a florist. It is because my grandfather, who has a license to be a flower arranging teacher, had taught me how to do flower arrangement beautifully, and I love the charm of flowers. By the time I was a junior high school student, I had wanted to be a tram driver. The reason why I had thought to do this is because I had really liked being in the tram, and thought about nothing. Now, my dream is to work in Germany, however I am not able to speak German well. Moreover, I do not have enough money to go there, so I have to study German really hard and earn a lot of money.
